SUBJECT: CITY OF SISTERS; PARKS COMMUNITY WORKSHOP

CITY OF SISTERS
PUBLIC INPUT FOR PARKS MASTER PLAN

On **Thursday March 3rd, 2011 from 5:00 p.m. to 7:00 p.m. at the Sisters City Hall**, the City of Sisters will hold its second public workshop to obtain input on public parks in Sisters. The Sisters Parks Advisory Committee is working with Cameron McCarthy, a Eugene planning and landscape architecture firm, to create a new Parks Master Plan for the community.

The Parks Master Plan describes in detail the content and condition of all parks operated by the City and makes recommendations for how parks should be developed in the future. The process has included extensive public involvement to identify strengths, opportunities, and needs of the Sisters parks system. Participants in this workshop will learn about the methods used, what the community has said thus far, and have the opportunity to provide further input and suggestions to affect future parks system recommendations. Participants will also have the opportunity to participate in design exercises for future public spaces.

If you have any questions please contact Pauline Hardie, Community Development Director for the City of Sisters, at (541) 323-5208.
