Nicole

This email is concerning the proposed zoning change at 201 North Pine Street. My name is Mike Ezell I own Solid Rock Granite and a commercial building on Curtis Court. While I certainly agree that sisters area does need affordable housing I think adding multi-family housing in an industrial park is a terrible idea. We have seen a large increase of traffic flow already from the roundabout funneling traffic down Barkley mixing families and kids into an industrial area I think will have a detrimental effect on the businesses and future business in this end of town. I strongly oppose this idea of changing the zoning at 201 North Pine Street two population dense multi-family housing.
