JOB NO. PXI-01

N:\PXI-01 (Sisters Woodlands\DWGS\SHEETS\ PXI-01_L0.2_Conceptual Open Space Plan.dwg

Open Space Amenities

activies that speak to the character of Sister, some temporary, others utilizing the large exsising trees for support and inspiration

storybook walk

app-based interactive, themed walks that can be programmed on a rotating basis

nature playscape

utilises existing wood debris and boulders to make creative structures and climbing play

slack line course

existing trees are the foundation of a network of lines that develop balance and coordination

pump track

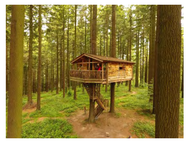
mounded earth around existing trees to create an intimate bike track for all skill levels

public art

temporary installations within the existing tree grove

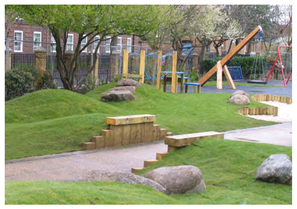
bollard lighting

Dark Sky-compliant fixtures along multi-use paths



tree structures

use existing groves as inspiration for elevated structures



berms

earthworks that could be used to preserve existing trees, and provide contrast to the existing

Pocket Park Amenities

actievities accesable to the public, strattegically located in areas that preserve existing groups of trees

bollard lighting

Dark Sky-compliant fixtures along multi-use paths

fitness area

accessible equipment for all ages, encouraging active life

play equipment

freestanding and themed play structures

table tennis

accessible to all, minimal equipment, magnet for participation and spectating

nature playscape

utilises existing wood debris and boulders to make creative structures and climbing play

salvaged elements

opportunities to repurpose trees for seating and other structures

Commons Amenities

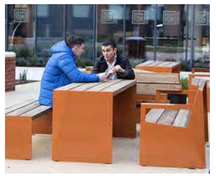
sem-private open space shared by adjacent cottages, focused on building community and extending living space to the outdoors

gardening

raised beds for residents to maintain their own open space

seating

furnishings that allow for outdoor comfort, napping, observation

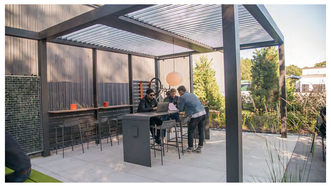


picnic tables

located to offer outdoor dining, conversation

fire pit

community magnet for cool evenings, allowing evening conversations to continue under dark skies



flex meeting space

modular covered structures that allow for outdoor work space and meeting space

berms

earthworks that could be used to preserve existing trees, and provide contrast to the existing

salvaged elements

opportunities to repurpose trees for seating and other structures
