To whom it may concern:

I have lived and worked in Sisters for the last 16 years. My Son graduated from Sisters HS in 2015.

I was lucky enough to rent an affordable home for the last 13 years. Unfortunately, my landlord recently passed away and his children decided to turn it into an Air BNB. After a frantic search to find another place, I was able to get into a small duplex in town. I was very concerned I would have to leave Sisters. I have been looking for a bigger place that better suits my needs but have not been able to afford or find one.

It is my dream to buy a house in the town I have called home for the last 16 years. I see this new development as my only hope. Working for Laird Superfood for the last 4 years has changed my life in so many ways. It has allowed me to have a career that I love in a place that I love and finally make enough money to afford a house. Before this job I was working several seasonal jobs to makes ends meet.

Please approve this project so locals can have a chance to own a home and raise their families in this beautiful place.

Thank You
