Subject: Woodhill

There are concerns in Sisters with the Woodhill development. However, the Laird Company is leaving Sisters and the Woodland development was tied to the jobs it was to bring to the Sisters Community, m(500), but only 45 lost their jobs.

Maybe Sisters need to stop and take a breath and look at what is happening and changing. before jumping to more development.

Change can be painful, but smart planning can be worthwhile.

Sincerely,
Carrie Buchanan

May not make this meeting due to, participating in the hoseless conversation on October 20th, with our employees as forest dwellers.
