The proposed Sunset Meadows development on Hwy. 242/ Mckenzie Hwy. is of major concern for us because of the very high density of the proposed development. Hwy. 242 is already a busy highway with middle school and high school traffic, and in the near future with the elementary school being in that area. That many housing units in that relatively small area will bring much more traffic, and increased noise level.

We urge the developers to take more consideration of residents adjacent to the development and refrain from putting apartment/condo buildings next to the fence, the preference is to have no apartment buildings. Fewer single family homes would be great with bigger lots for them and more green space. This is a unique town and we would like to see it stay unique with better planning/location of housing developments.

Thank you for your consideration of cutting back on the density of dwellings and, especially, not putting in apartment buildings.
