CITY OF SISTERS

HELP SAVE SISTERS!

If you are concerned about Sisters runaway, irresponsible, hasty over development then please be aware of the applicant, Woodhill Homes for the purchase & permits to build the 12.85 acre Master plan called Sunset Meadows on the Scenic Hwy. 242, between Hood Ave. and Brooks Camp Rd. that will possibly include over 200 SF homes, Townhomes and apartments.

In addition to the already many developments being built all over Sisters, this development will have a great negative impact to our already crowded streets and town re: density, height, traffic congestion, inadequate parking, infrastructure for crime prevention, fire evacuation, wildlife habitat impacts, water impacts, dark sky impacts and more. No studies have been done.

This is an inner city row house style development that does not conform to the Historic Western small town lifestyle that was the reason so many of us chose to live here.

For more information please go to the City of Sisters website:

ci.sisters.or.us

click on: Community Development - Notable Active Projects - Sunset Meadows

Please make your opinions known by attending the Nov. 3 meeting @ 5:30pm @ City Hall. Collectively we can have input in how our town can and should grow responsibly!

In addition please send your comments in letter form or email to: city planner, Mr Martin mmartin@ci.sisters.or.us
