Dear Sir,

I would like to make my objections to this new development called Sunset Meadows. There are many reasons, mainly it is just being done by Woodland Hills to make a nice profit leaving us with a unsightly housing development without enough input by the community. We need to look at everything, traffic, parking, building designs and infrastructure. What about sewer, water and electricity usage? Can Sisters handle this?

Let's think and study about this more before committing to land purchase and permits.

Thank you for listening. Lauraine Kostal
